78	This domicile is really convenient.	Handy Household
79	Van Gogh might have done the painting here?	Sunflowers
80	It sounds like this could lead to melted ice-cream!	Warm Walls

### Notes (marked with an asterisk \*)

**7\*** This clue is on the cast grid cover on the ground just behind Williams. It originally said just “R & B”, but the cover has been changed. The new version still says “R & B” but now includes “Chamber” – both categories of music and hence **both** acceptable answers.

**24\*** This clue refers to the name plate on the wall of the dental surgery on Crown Bank. However, after the quiz was set, the outside of the building was stripped for redecorating. Although a new name plate is now back, it was missing for a significant part of the time that the Treasure Hunt was open. The clue has therefore been discounted from the final tallies (but congratulations to those determined folk either remembered it or looked it up, getting it right anyway when it was missing).

**27\*** This was the commonest error, with lots of people putting “Cutting Edge” as the answer. The correct answer, “Cutters Cottage” was less easy to see, but is clearly referenced in the question (small house is a synonym for cottage).

**43\*** This was the second most common error. Some people just put “Ganges”, but the clue points to the proper answer of Ganges **Express**.

**66\*** This question should have read as “John **William** Booth”, not “John **Wilkes** Booth” (the infamous assassin of Abraham Lincoln (and not JR, as someone helpfully suggested). No-one got it wrong!
