Hassall Green Nature Reserve is a 2.2 hectare site on the outskirts of Hassall Green village, close to the Salt Line footpath.

Previously a sand quarry and landfill, Hassall Green Nature Reserve is a fantastic mix of mature woodland and establishing meadows.

The site is being considerably managed to let the habitats evolve naturally.

Located just 2 miles from Alsager and 5 miles from Sandbach, it's YOUR local nature reserve which is just waiting to be discovered and enjoyed by the local community!
